CUSTOMER QUOTE:

"It is because of (Whitetail's) work and attention that the ARNG won four out of the eight Secretary of Army Environmental Awards this year. This certainly is the best that our organization has done during the past three years and I would argue that it is the best the ARNG has ever done."

**Program Manager – Headquarters,
Army National Guard**

Whitetail has considerable experience in providing Environmental Compliance management and support services to our customers. Our program and project management staff have backgrounds in a variety of technical disciplines and hold numerous professional registrations and certifications. We are well versed in meeting mission requirements and provide our clients with a proven mix of technical and scientific knowledge and expertise to help satisfy their regulatory requirements and issues.

Our professionals add value to our customers by serving as an extension of their existing staff. We assist with preparing and updating compliance documentation and management plans, delivering training, developing and implementing best management practices, and providing staff assistance visits to client facilities. We are well-versed in both federal and state regulatory structures and are providing compliance management and support to customers in all four continental U.S. time zones.

Whitetail offers expertise with the following regulatory drivers:

- Air Quality
- Environmental Management Systems (EMS)
- Hazardous Materials/Hazardous Waste
- Solid Waste
- Stormwater Management
- Pollution Prevention (P2)
- RCRA/CERCLA
- Water Quality
- Energy/Sustainability

Project Examples

- Whitetail provides and oversees a myriad of compliance support at Fort Hood Army Post, Texas. We support the Air Quality, Water, Underground Storage Tank (UST) Systems, and Spill Prevention Programs through a variety of onsite and reach-back compliance management services.
- We support the daily operation of Aberdeen Proving Ground, Maryland's Hazardous Waste (HW) storage facilities in two different locations within the installation. We also provided as-needed waste sampling and analysis services; HW data entry, tracking and reporting; and upload results in to the online enterprise waste tracking system.
- At Fort Jackson, South Carolina, Whitetail provides technical expertise and program area management support for the CERCLA and Installation Restoration Program (IRP) programs and all associated remediation activities; Water (drinking, storm, waste); Air Quality, Solid Waste, Environmental Performance Assessment System (EPAS), Sustainability Management System (SMS), P2, regulated waste, and environmental training.
- In support of the U.S. Army Reserves (USAR), 99th Regional Support Command (RSC), Whitetail implements procedures necessary to lessen/avoid impacts and risks resulting from significant environmental aspects, and provide recommendations to RSC and facility personnel on the environmental aspects of activities and recommend best management practices so that the RSC can mitigate USAR's impacts and have the knowledge necessary to comply with all applicable regulations.
- Whitetail developed a Storm Water Pollution Prevention Plan (SWPPP) for Joint Force Headquarters North Carolina Army National Guard (ARNG). We conducted semi-annual outfall sampling, prepared Discharge Monitoring Reports, performed inspections, and conducted annual training for two NPDES permits.
- Whitetail developed web-based logs for demonstrating compliance and calculating air emissions from multiple synthetic minor permitted facilities for the MSARNG.
