Whitetail is a Small Business Administration (SBA)-certified 8(a), HUBZone certified, Native American-owned small disadvantaged business. Incorporated in 2010 in Jay, OK, we specialize in all areas of environmental program management support for the Department of Defense (DoD), state military departments, and other federal and commercial clients. We pride ourselves on being scientists and engineers that understand our clients' unique missions and assist them in finding innovated ways to apply best management practices and information management technologies to better serve those missions. With over 70 employees and office locations in all four continental U.S. time zones, Whitetail has been the prime contractor on over 60 projects ranging in size from \$10,000 to \$6.5 million. Our client list includes the following agencies:

- U.S. Army
- U.S. Army Reserves
- U.S. Navy
- U.S. Air Force
- National Guard Bureau
- Bureau of Indian Affairs
- Bureau of Reclamation

We have or currently hold prime contracts with the following U.S. Army Corps of Engineers (USACE) Districts:

- USACE Tulsa
- USACE Savannah
- USACE Baltimore
- USACE Louisville
- USACE Kansas City
- USACE Seattle
- USACE Omaha

We provide the following services to our customers:

Environmental Compliance

Our professionals add value to our customers by serving as an extension of their existing staff. We assist with preparing and updating compliance documentation and management plans, delivering training, developing and implementing best management practices, and providing staff assistance visits to client facilities.

Environmental Planning

We have and are currently providing a wide range of services for environmental planning requirements related to real estate actions, military construction (MILCON), training actions, equipping actions, and federal actions.

Auditing Services

Our certified lead auditors in ISO 14001 and OHSAS 18001 conduct audits for both public and private organizations that adhere to the guiding principles of ISO 19011 (Guidelines for Quality and/or Environmental Management Systems Auditing).

Training

Our training professionals have developed content across broad environmental subject matter areas for a wide variety of customers. Our experience and past performance includes extensive technical courseware development and collaboration with subject matter experts (SMEs) that result in effective training courses across multiple user platforms.

Information Technology/Management Systems

Our IT and environmental compliance experts deliver customized applications that streamline decision making, centralize data and document management, and readily demonstrate our clients' regulatory compliance during audits and inspections.
